

GIVE THE GIFT OF TEA EDUCATION ▼

As part of its **Taste of Origin** push, **Rishi Tea** has started offering three organic and fair-trade-certified gift sets. Each set includes hand-selected tea from Manning Manmai's wild-harvested tea trees in China's Yunnan region. Rishi, based in Milwaukee, is using its Taste of Origin program to educate tea drinkers about the geographic origin of teas. rishi-tea.com

THE GREEN MACHINE ▼

Espresso machine manufacturer **Unic**, which recently celebrated its 90th anniversary, upped its eco-friendly cred by obtaining RoHS certification this spring. RoHS compliance is a directive set out by the European Union to restrict the use of specific hazardous materials found in electronic products. The restricted materials pollute landfills and present health risks to

workers exposed to them during the recycling and manufacturing processes. Unic is headquartered in France. 866/296-8642. www.unic.fr
