

A NEW WAY TO TAKE TEA ON THE GO ►

Rishi Tea is rolling out **Natural Tealeaf Powders**, an innovative way to drink tea on the go. Available in four authentic flavors—Sencha, Genmai, Oolong and Matcha—Natural Tealeaf Powders come conveniently packaged in pre-portioned sticks to preserve the tea's freshness, flavor and color. The powders are ideal for travelers, busy parents, college students, outdoor enthusiasts, tea aficionados and those with on-the-go lifestyles, combining the great flavor and health benefits of real tea with the ease and convenience of instant tea. Unlike instant tea extracts, Rishi's powder is made from 100-percent pure tea leaves that are cold-milled into a fine powder. There are no added colorants, synthetic sweeteners, sugars or flavors—just the antioxidant, vitamin and mineral richness of real tea. rishitea.com
