

## INTRODUCING our newest blends for 2010!

We've handcrafted 12 new loose leaf teas, including 6 innovative botanical blends, 3 delicious chai teas, 2 energizing green tea blends and a new oolong blend. All new teas are available for sampling and sale.

**Green Tea:** Our new green tea blends fuse "super fruits" and naturally energizing herbs with green teas for a mood boosting and uplifting beverage without the sugar, chemicals and crash of most energy drinks.

**Pu-erh:** Inspired by the rich history of pu-erh, our new pu-erh blends are warming, cleansing and infused with the art of innovation.

**Botanicals:** One of the fastest growing segments of tea is "wellness tea" but few premium loose leaf options exist. We've introduced six functional "wellness" style blends that are naturally caffeine-free, organic and absolutely delicious.

**Chai:** Three new innovative Chai blends that draw upon exotic and inspired ingredients, designed for slow-brewing or infusing like tea.
