THE GEAR YOU NEED FOR THE JOB YOU DO

good tea, good water

www.rishi-tea.com

In the cup, tea, like coffee, is really mostly water, and no matter how good the tea or the coffee, bad water will spoil it. To turn the tables on bad water, Rishi Tea is devoting 25 percent of the profits from sales of its Organic Cinnamon Plum Tea to the Clean Water Fund, a grassroots organization working to protect and restore America's waters. Try the versatile tea, which works great served hot, iced or brewed as mulled tea, and you'll be helping everyone enjoy good water.
